ABOUT THE BAND

Formed in 2015 by guitarist/songwriter Bardar, 4th Axis define their music as art rock, with philosophical themes for lyrics and progressive layers of harmony having subtle shades of jazz. With Bardar and Anupreet as the core musicians in the band, they are supported by a tight rhythm section consisting of Sarthak on the drums and Ashwini Garg on the Bass Guitar.

They released their debut album, Religion in September 2018. The album has an alternative rock sound associated to it, however it frequently alternates to an ambient acoustic sound. The concept of the album is based on disillusionment and eventual escape from religion. Its themes explore introspection, Science, comedy, debate, etc. as means to peeping out of the umbrella of religion. It also includes themes on war, nihilism, depression and existential crisis.

4th axis performs in Duo, Trio and 4 piece band formats. Their live sound sits in the space of Alternative Rock or Ambient Acoustic.

As of September 2018, they have released 2 singles and 1 album. Besides performing live, Bardar and Anupreet are also working on recording 4th Axis's second album called "Truth".
